## DETAILED ACTION

### *Reasons for Allowance*

Claim 9 is allowed. The following is an examiner's statement of reasons for allowance: applicant discloses a process for producing a three-dimensional polyimide optical waveguide by irradiating an insider portion of a polyamic acid film with a pulse laser beam having a pulse width of  $10^{-15}$  to  $10^{-12}$  second, a repeating frequency of 10 Hz to 500 kHz, and wherein the polyamic acid film contains a polyamic acid with a dihydropyridine derivative. Available prior art to Kouta et al. (U.S. PGPub 2001/0021293) teaches a similar process using a pulse laser, and previously cited Hayashi teaches a photoresist that meet the chemical composition limitations. However, any resulting 35 USC 103(a) rejection based on modification suggested by the references would not have met the requirements of a *Prima Facie* case of obviousness. Particularly, Hayashi does not teach that the refractive index of his chemical composition would change since it is used as a photoresist and not a waveguide. As a result, there lacks a suggestion or motivation to modify the reference or to combine reference teachings as well as a reasonable expectation of success. It is the examiner's position that the prior art of record, taken alone or in combination, fails to disclose or render obvious any modifications that would result in the disclosed process, in combination with the rest of the limitations of the base claim.

Claims 2-5, 7, 8 and 11-14 are allowed as dependent claims of allowed claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charlie Peng whose telephone number is (571) 272-2177. The examiner can normally be reached on 9 am - 6 pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank Font can be reached on (571) 272-2415. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
